Federación Mexicana de Diabetes A.C.
Hospital IMSS Toluca

2015 Goals

- While the EIM Mexico team has accomplished many things in 2014, particularly related to training of physicians, they are looking to 2015 to establish a greater foundation for the development of EIM in Mexico. This will include the identification of a host institution and further expansion of their Advisory Board.

Past Accomplishments

- Gained knowledge of the different colleges, and ministries of health in the region and in the nation to include as future partners in EIM Mexico.
