

## EDUCATION COMMITTEE

### Committee Mission

Advance educational activities for Exercise is Medicine® in multiple settings

### Committee Goals

- Develop continuing education courses that address the EIM program and its application in multiple areas
- Identify and pursue ways to increase training and education on physical activity as treatment and prevention of disease in health care curricula (i.e., medical school, graduate training, nursing school, physician assistant training)
- Review and approve/reject submissions for all third-party applications to become official "EIM" courses or programs

### Current Projects/Upcoming Projects

- Undergraduate medical education curricula
- EIM continuing medical education training for health care professionals
