

PEDIATRICS ADVISORY GROUP

Advisory Group Mission

Adapt and promote the Exercise is Medicine® initiative for use in pediatric populations as a strategy for increasing the physical activity levels of children and adolescents

Current Projects/Upcoming Projects

- Create and validate a pediatrics Physical Activity Vital Sign (PAVS)
- Promote advanced training for primary care and health care providers that work with child and adolescent populations
- Develop materials for the promotion of EIM to pediatricians and primary care providers
- Oversee demonstration studies that assess the implementation and effectiveness of EIM in pediatric settings
- Develop strategic partnerships with health care organizations, industry partners and government agencies for the advancement of EIM in children and adolescents
