(ILSI) Focal Point in China

Host Institution – ILSI Focal Point China

ILSI Focal Point China has made significant contributions to the promotion of cooperation and scientific information exchange between Chinese and global academic communities in the field of nutrition and food safety. All the activities of the ILSI Focal Point in China are well-targeted to the major country-specific public health issues and the emerging problems in nutrition and food safety in China.

2018 Goals

- Promote the EIM Solution to health care systems in China
 - Continue offering EIM training courses to physicians and health care professionals
 - Develop a network of EIM trained exercise professionals
 - Form an official partnership with government officials in the General Administration of Sport of China and the National Health Commission
-

Accomplishments to Date

- Conducted training workshops for more than 1,500 physicians and health care professionals across China
 - Host an annual “Conference on Physical Activity and Health” that features EIM
 - Established official EIM China website and WeChat account
 - Initiated EIM On Campus programs on university campuses across China
 - Held a special forum on EIM at *The Belt & Road Forum for International Cooperation (BRF): Towards a Health Silk Road* (August 2017)
-

**Exercise
is Medicine[®]
China**
