Host Institution – The Society of Exercise is Medicine Malaysia

The Society of Exercise is Medicine Malaysia is a non-profit organization dedicated to developing exercise and sports medicine in Malaysia. To achieve this goal, the Society is taking responsibility to train and educate health care providers, exercise professionals and the public about the importance of exercise as a preventive medicine.

2019 Goals

- Integrate physical activity as a vital sign and implement principles of EIM into hospitals and health care systems throughout Malaysia
 - Increase the number of physicians and health care providers that receive EIM training and are actively engaged in the assessment, prescription and counseling of physical activity in health care systems
 - Increase the number of health and fitness professionals that received EIM training, are certified by EIM Malaysia, and are actively engaged in providing guidance to individuals based on the core EIM principles
 - Conduct a minimum of two training courses for health professionals
 - Conduct public forums on the benefits of physical activity for health to better engage the public
 - Engage schools to advocate and highlight the importance of exercise in children
 - Increase the exposure of EIM to university and other educational campuses through the expansion of the EIM on Campus initiative
 - Engaging at least one national ministry (Health, Education, or Youth and Sports) in partnership
 - Begin Walk with a Doc program in Malaysia
-

Accomplishments to Date

- Signed MOU with American College of Sports Medicine in July 2018
 - Granted full registration (represented at a national level) by the Registrar of Societies Malaysia (ROS Malaysia) under the act of Malaysian Societies 1966
 - Initiated two EIM On Campus programs at the University Teknologi MARA – Perlis Branch and the other at the Hospital Canselor Tuanku Muhriz – The National Malaysian University Medical Center
 - Conducted two EIM credential certificate courses in 2018 for 73 health professionals
 - Conducted a public awareness program in HCTM-UKMMC called “Exercise – The Magic Pill” that was attended by over 250 staff (April 2018)
 - Held a public forum with the Institute of Physical Educators in Bandar Tun Razak, Kuala Lumpur Malaysia to discuss the importance of exercise for Malaysian students (June 2018)
 - Founded an international support group to share knowledge across the globe including partners in Denmark, Portugal, Canada and Egypt
 - Founded a “Football for Health” committee under the Society of Exercise is Medicine Malaysia headed by Dr. Ayman Al-Bedri and Dr. Pavandeep Singh Dhillon (both PG Dip in Football Medicine achievers from FIFA). The committee is inspired by Professor Peter Krusturp (Denmark) and Dr. Marcos Agostino (Portugal) with the idea of promoting football as a way of increasing physical activity and reducing sedentary
 - Founded “Have Fun, Be a Kid” committee under the Society of Exercise is Medicine Malaysia to tackle and address the issue of children inactivity and obesity among Malaysian children and adolescents
