Sri Lanka Sports Medicine Association

Host Institution – Sri Lanka Sports Medicine Association

The Sri Lankan Sports Medicine Association (SLSMA) is a public, non-profitable, scientific organization of sports medicine in Sri Lanka following the statute of the International Federation of Sports Medicine and the principles of the International Olympic Committee. The SLSMA was established in 1992 with the purpose of creating and providing sports medicine facilities to persons involved in sports without discrimination of race, religion, cast, creed or sex.

The role of the SLSMA is to create and provide sports medicine facilities to persons involved in sports, organize and help national and international sports organizations, agencies, associations and federations in organizing sports medicine facilities, facilitate and provide a scientific forum for the coordination and communication of all the sports medicine disciplines, and educate people and mobilize public opinion regarding the prevention of injuries by arranging courses and imparting training for the prevention of injuries which come within the scope of sports medicine.
