

Dr. Jorge Sarango

National Center Director

Jorge Sarango Aguila, M.D.

Affiliation

Director, Center of Exercise & Rehabilitation (CEMDER)

Host Institution – Peruvian Sports Medicine Society

The *Sociedad Peruana de Medicina del Ejercicio* (SOPEMED) is a non-profit organization dedicated to promoting and updating the field of exercise science, not only in competitive sports, but also in the practice of physical activity promotion for health. SOPEMED was established in 2002 with the purpose of conducting academic activities related to physical activity, health, and sport. SOPEMED seeks to bring together medical professionals, nutritionists, psychologists, and trainers who are related to the promotion, training and health care of people performing physical activity as a lifetime habit.

2023 Goals

- Re-organize the EIM Peru National Center Advisory Board
 - Enhance partnerships (e.g., EIM On Campus program) with the University of San Martin
 - Promote EIM education programs to the Ministry of Health as a public health policy.
 - Involve state health authorities and medical societies in physical activity prescription programs.
 - Include physical activity as a vital sign in the patient's medical history.
 - Evaluate, through the participation of a multidisciplinary team, how to apply the principles of evaluation and screening for physical activity in regular medical practice.
 - Involve medical specialists and general physicians in an effort to promote physical activity as part of their activities in health care systems through the participation in EIM training courses.
 - Involve physicians, who have completed the EIM training, in the training of new health professionals.
-

Accomplishments to Date

- Officially established the EIM Peru National Center (June 2017)
- Participated in the International Course of Physical Activity and Public Health "Policies and Strategies in the Fight Against Sedentarism" organized by RAFA PANA (2018)
- Participated in the XIV Peruvian Nutrition & Food Congress (2018)
- Presented at the Peruvian Association of Obesity & Arteriosclerosis annual congress (2018)
- Participated with the Peruvian Ministry of Health on a national exercise program (2018)
